WORK EXPERIENCE

HappyAspiraints

Full-stack Developer(intern)

Remote

Sep 2024 - Present

- Translated Figma designs into responsive front-end components using React.js, which improved the user experience on the landing page. Developed various components that ensured a consistent and visually appealing layout.
- Designed and implemented a mentorship page featuring a carousel to display mentor data, improving user engagement and accessibility to resources. Overcame challenges in fetching mentor data from the backend by effectively learning API integration techniques, resulting in seamless data display in the mentorship carousel.
- Currently working on a "Happy Coins" page aimed at enhancing user interaction and functionality through creative design and coding practices.
- Integrated APIs to improve front-end functionality, ensuring smooth communication between the user interface and backend systems for real-time data updates.

Quizizz

SME

Remote

Jan 2024 - Mar 2024

- Collaborated with teams to identify and resolve user issues, enhancing overall user experience through effective problem-solving
- Created clear, step-by-step guides for solutions, improving accessibility and reducing support queries.

TheZonzo

Frontend Developer

Remote

Oct 2023 - Dec 2023

- Designed and developed a responsive website using React.js, ensuring an appealing UI.
- Working closely with cross-functional teams to conceptualise, troubleshoot and implement new features.

PROJECTS

Country rest api Html, Css, Javascript

<https://rest-country-api-as.netlify.app/>

This project is a web application built with integrates the REST Countries API.
